Accessible

Simple

Affordable

WHY DERMENGINE?

DermEngine is designed to simplify your workflow. Our hassle-free platform is easy to use and allows you to focus on your patients - not the process.
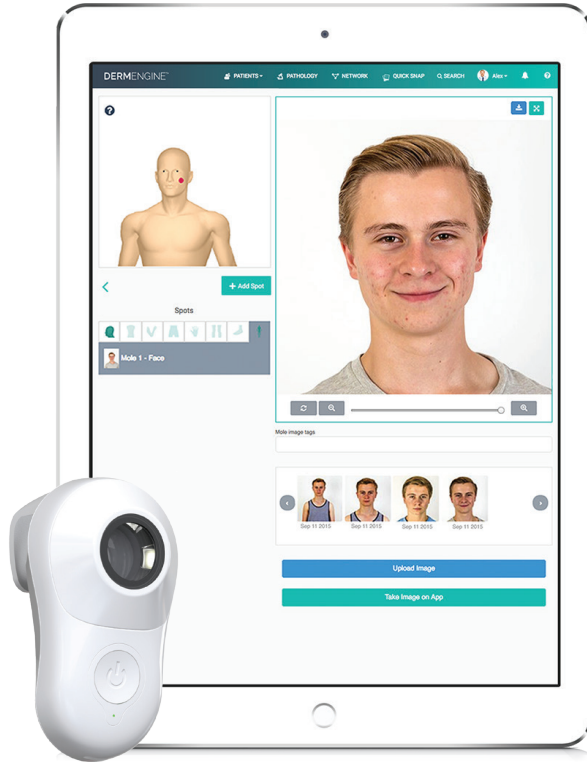

ADVANCED DERMOSCOPY

Compatible with all dermoscopes including MoleScope devices.

Slideshow of images taken at different times

APPLICATIONS

- Skin cancer early detection
- General dermatology
- Ongoing treatment monitoring
- Trichoscopy

FULL-BODY IMAGING

Smart template-guided image capturing procedure for Full-Body Imaging includes standarized poses on DermEngine platform on mobile and web.

Use the **Diff** and **Flicker** modes to find new or changing lesions easily

3D BODY MAP

Place and organize moles and images on an interactive 3D body map

Find corresponding lesions automatically and compare lesions side by side

CLINICAL DECISION SUPPORT TOOLS

- Visual Search
- Evolution Tracker
- MoleMatch
- Smart image rotation
- Clinic Analytics
- Digital hair removal

Visual report of analysis results in the form of charts and graphs

Find similar lesions automatically and compare side by side

TELEDERMATOLOGY & REFERRAL NETWORK

Build and customize your own referral network on the DermEngine platform. DermEngine can securely connect you with your hospitals, family physicians, dermatologists and pathology centres so you can give your patients the care they need.
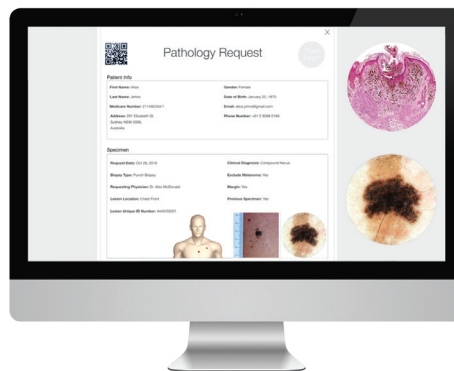

4. Comprehensive report is sent to the user

1. User takes images of spot

3. Medical experts reviews the images

2. Images are securely sent to medical experts through DermEngine

EMPOWER YOUR PATIENTS
(FREE APP)

With the MoleScope Home Edition, patients can perform routine imaging from home and are actively involved in their care plan. MoleScope will remind your patients when it's time for their regular skin exams. Refer your patients to *www.molescope.com*.

INTUITIVE CLINICAL DOCUMENTATION

- Pathology requests and results
- Patient communication
- Clinical procedures
- Routine followups
- Custom reports
- Clinical analytics

FEATURES

Safe & Secure
HIPAA-compliant with multi-region data centers.

Backups
Easy physical backups from DermEngine's secure cloud database.
