

List of TrikoScope Inserts/Compatibility

In order to accommodate for the varying dimensions of smartphone/tablet models, each TrikoScope insert has been specially designed to achieve the highest imaging quality. Based on your current smartphone/tablet, your desired upgrade will fall into one of three categories:

1. **No Action Needed:** If your desired smartphone/tablet has the same letter/number combination in the “Insert Model” section of the same table as your current model, your new device is already compatible.
2. **Upgrade Your Insert:** If your desired smartphone/tablet is in the same table as your current model, you will simply need to purchase a new insert for \$20 in our [online shop](#).
3. **Purchase A New TrikoScope:** If your desired smartphone/tablet is in the opposite table you will need to purchase a new TrikoScope device, as these models are not compatible.

Phone/Tablet Model Back Clip B	Insert Model	iPhone/iPod Model Back Clip A	Insert Model
